# CLASSES CORRESPONDENCE TABLE

## IMPORTANT!

The following correspondence table is solely for information purposes. The objective is to help parents, in the best way possible, in choosing the suitable admission class for a student coming from an education system different from the one we offer and with class names different from ours.

In any circumstance, this table should not be used as a standard to admit a student into a given class, considering only the age, which is an indication, and regardless of the other admission criteria or prerequisites and the academic results of the student.
